# Technology that works for you and your ROI

## Treating yourself to the technology resources you demand

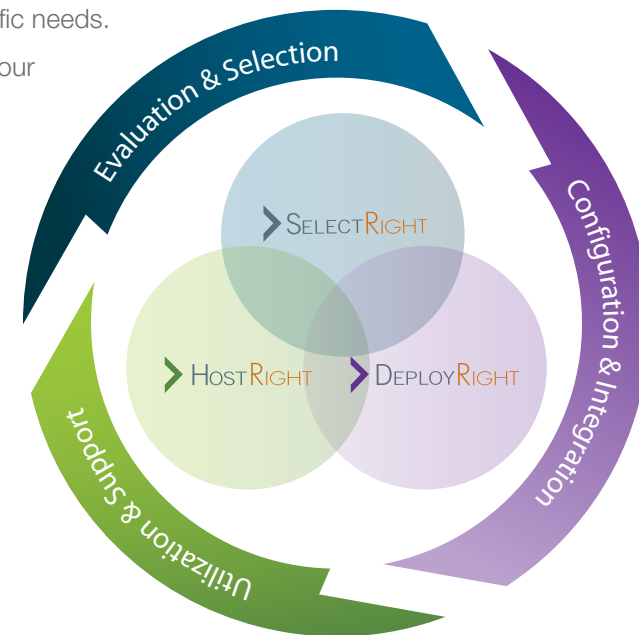

Your strategic challenges are unique and different from your competitors. And so are your systems and work processes. Expense ratios keep climbing while the speed to market pressures mount. Flexibility and timely resources are critical to your success and those who you support. In essence you need to find the most cost effective solutions with the highest degree to on time performance and still produce a solid return on investment.

DataCede Technology consulting prides itself in delivering highly adaptable solutions in custom software and database development tailored to your specific needs.

We have deep domain experience to quickly understand your problems and deadlines and provide you with the extra cycles you need to get the job done, on-time, on budget, and at a price you demand.

# Flexible solutions for your peace of mind

## Technology staffing onshore

DataCede Staffing is a full service placement and team deployment firm that can give you immediate teams of people with very specific skills and abilities. From project management to programming we're here to support your needs. SAP, Oracle, EMC, SQL, C++, BI, J2EE, to .Net - we have them all. You deserve the best of the best - when you need them - for as long as you require. Look to DataCede Staffing.

## Technology staffing offshore

We offer teams of offshore developers and IT specialists to reduce your costs and increase your return on investment. Offshore dedicated software teams extend the quality and efficiency of your IT maintenance for the long run, keeping it cost effective and affording you the time to think strategically and deploy resources appropriately.
